

ROYAL Baking Powder

ABSOLUTELY PURE

Healthful cream of tartar, derived solely from grapes, refined to absolute purity, is the active principle of every pound of Royal Baking Powder.

Hence it is that Royal Baking Powder renders the food remarkable both for its fine flavor and healthfulness.

No alum, no phosphate—which are the principal elements of the so-called cheap baking powders—and which are derived from bones, rock and sulphuric acid.

How do you expect to spend Thanksgiving? Do you expect to spend it in thanking Him of all good for sparing your wicked lives or do you expect to spend it in drunkenness and blaspheming His holy name?

Maxville

I want to correct some one who is to blame for making the Maxville Editor say in giving the names of the barn builder big Jackman Nixon which should be Zacharia Nixon and also Marion Hiles instead of Marion Niles and Harry Angle instead of Harry Angie. I would be afraid to meet that gentleman before the correction in some lonely spot, well that's all.

John O. Thompson and wife have returned to Van Wert. They sold their Maxville property consisting of a store room and dwelling to Alexander Poling for five hundred dollars. David O'Hara is occupying the property with a general store.

The David Wolf saw mill has moved from Isaac Hardsells down on the Durr farm in Marion township.

The Debating club, of Monday Creek township, met at the school house in Whiskey Hollow, and called by some of its residents Temperance Hollow, but I think from the amount of booze in evidence it will still have to bear the very unpleasant name of Whiskey Hollow, well they discussed the question, "Which was the Happier Life, the Savage or the Civilized." I cannot give you the verdict. They will meet in Maxville on next Saturday night to discuss some question, I can't tell you what.

I see in the Journal Gazette an illustration of a machine to keep good roads, but I think the best and the cheapest way to keep good roads is to make good roads in the first place and then it will cost but little time or money to keep them good. I think that the man who advocates keeping the mud roads good through the rainy season had better soak his head in some hardening substance.

Several of our people have recently been afflicted with boils. We don't know but we can guess that a "boil" is a pretty serious affair. Remember Job's patience.

THE OLDEST MAN IN AMERICA

Escaped the Terrors of Many Winters By Using Pe-ru-na.

Mr. Isaac Brock, 117 Years Old Last Birthday.

ISAAC BROCK, a citizen of McLennan county, Texas, has lived for 117 years. For many years he resided at Bosque Falls, eighteen miles west of Waco, but now lives with his son-in-law at Valley Mills, Texas.

Some time ago, by request, Uncle Isaac came to Waco and sat for his picture, holding in his hand a stick cut from the grave of General Andrew Jackson. Mr. Brock is a dignified old gentleman, showing few signs of decrepitude. His family Bible is still preserved, and it shows that the date of his birth was written 117 years ago.

Born before the United States were formed. Saw 22 Presidents elected. Pe-ru-na has protected him from all sudden changes. Veteran of four wars. Shod a horse when 99 years old. Always conquered the grip with Pe-ru-na. Witness in a land suit at the age of 110 years. Believes Pe-ru-na the greatest remedy of the age for catarrhal troubles.

Ask Your Druggist for Free Peruna Almanac for 1907

"In speaking of his good health and extreme old age, Mr. Brock says: 'After a man has lived in the world as long as I have, he ought to have found out a great many things by experience. I think I have done so.'

"One of the things I have found out to my entire satisfaction is the proper thing for ailments that are due directly to the effects of the climate. For 117 years I have withstood the changeable climate of the United States.

"I have always been a very healthy man, but, of course, subject to the affections which are due to sudden changes in the climate and temperature. During my long life I have known a great many remedies for coughs, colds and diarrhoea.

"As for Dr. Hartman's remedy, Peruna, I have found it to be the best, if not the only, reliable remedy for these affections. It has been my standby for many years, and I attribute my good health and extreme old age to this remedy.

"It exactly meets all my requirements. It protects me from the evil effects of sudden changes; it keeps me in good appetite; it gives me strength; it keeps my blood in good circulation. I have come to rely upon it almost entirely for the many little things for which I need medicine.

"When epidemics of la grippe first began to make their appearance in this country I was a sufferer from this disease.

"I had several long sieges with the grip. At first I did not know that Peruna was a remedy for this disease. When I heard that la grippe was epidemic catarrh, I tried Peruna for la grippe and found it to be just the thing."

In a later letter, Mr. Brock writes: "I am well and feeling as well as I have for years. The only thing that bothers me is my sight. If I could see better I could walk all over the farm, and it would do me good. I would not be without Peruna."

Yours truly,
Isaac Brock.
When old age comes, it brings with it catarrhal diseases. Systemic catarrh is almost universal in old people. This explains why Peruna has become so indispensable to many old people.

Missing Witnesses in Thaw Case

New York, Nov. 27.—Clifford W. Hartbridge of counsel for Harry K. Thaw notified District Attorney Jerome that on Friday application would be made by the defense for two commissions, to be appointed by the supreme court, to obtain evidence from two men who were with Thaw on the night he shot Stanford White at the Madison Square roof garden, and who are now out of the local court's jurisdiction and therefore can not be subpoenaed. The men mentioned in the petition are F. Beale, now in Bakersfield, Cal., and Thomas Max Caley, now in Chicago. The petition states that these two men dined with Thaw and the latter's wife on the night of the shooting and later accompanied the couple to the roof garden. The petition states further that these two witnesses are of vital importance to the defense, and that it would be an injustice to bring the case to trial without their testimony.

Prohibition in Oklahoma

Guthrie, O. T., Nov. 27.—When the constitutional convention met here

after a recess of three days President Murray submitted his 46 committees. The opponents of prohibition are disturbed over the appointment of a Prohibitionist, K. J. Curt of Bartlesville, as chairman of the liquor committee. The statehood enabling act places the Indian Territory portion of the new state under prohibition for a period of 21 years, and it is believed that an effort is being made by the Indian Territory delegates to bring about constitutional prohibition over the entire state.

Death Rate in Canal Zone

Washington, Nov. 27.—Not a single American died on the canal zone from disease in the last three months, according to a report the isthmian canal commission has just received from Colonel W. C. Goran, the chief sanitary officer on the zone. The decrease in the death rate among the employees, Colonel Goran reports, is due almost entirely to the decrease in pneumonia. In October the deaths among canal employees were 36 negroes and two whites.

Prohibits Prizefights

Grand Rapids, Mich., Nov. 27.—As a sequel to the recent death of Mike Ward of Sarnia, Ont., after his fight here with Harry Lewis of Philadelphia, an ordinance was introduced in the city council practically prohibiting prizefights.
